Re: Fire Alarm Panel Testing

Date: **MONDAY, SEPTEMBER 28, and TUESDAY, SEPTEMBER 29, 2009.**

Please be advised that we have hired Intercity Alarms to TEST the fire alarm panels in your building. They will be here **Monday, September 28th** through **Tuesday, September 29th, 2009** to perform testing. They may need to enter your condominium to check the heat detector in the process of testing. In the event that they do, our maintenance personnel will accompany them into your condo. You do not need to make arrangements to be home unless you changed your locks and failed to give us a key. You may also hear short blasts of the alarm during the testing process. If you have any questions, please don't hesitate to contact the Natick Green Office at (508) 655-5800.

Thank you for your attention and anticipated cooperation.
